If you forget when your appointment is:

The last day for research and papers is Thursday, September 11, at 8 pm. Papers are due at 5 pm.

If you are participating in research for extra credit, be sure to pay attention to your instructor's deadline, as it may be different from the one listed here.

Please be sure that all your credits are assigned to a course. They will not count unless they are assigned to the correct course. You cannot reassign credits from previous quarters, as those credits have been zeroed out.

For information about changing your course enrollment, see this website.
